

TECHNICAL DATA SHEET

ALUMINUM CLEANER & BRIGHTENER

Prod # 7510

Description:

- Aluminum Cleaner & Brightener brightens and cleans in one operation.
- Is safe when used as directed.
- Is non-harmful to metal when used as directed.
- Is non-fuming and has a positive action.

Directions:

- ALUMINUM CLEANER & BRIGHTENER can be sprayed on or applied with a long handle brush or sponge.
- Cool the surface before cleaning by flushing off with water.
- Begin the application on the bottom surface and work upward.
- Apply with a circular motion, agitating enough to loosen the surface film.
- Allow the Aluminum Cleaner & Brightener to remain on the surface approximately 1 to 2 minutes, then hose off with clear water.
- When used in a food plant, avoid contamination of food. Food contact surfaces are to be rinsed with potable water after use of the product.

It is recommended that only a small section be cleaned at one time before moving to the next area to be cleaned.

DILUTION SCALE:

For heavy oxidation and corrosion removal, use 1 part of Aluminum Cleaner & Brightener to 5 parts water. To remove light corrosion or oxidation, use 1 part Aluminum Cleaner & Brightener to up to 20 parts water. For very light cleaning, it is suggested that the operator use his own discretion as to a desired concentration. The dilution used can be varied according to the condition of the surface being cleaned.

Note: Add product to water, not water to product.

Shipping:

Available in 4x4L, 20L, 210L
